

Is your solar energy system delivering results?

One of the reasons you installed a solar energy system was to save money right?

You've seen a reduction in your power bills and everything seems to be working fine... but is it?

The Solar Smart Monitor keeps track of your solar energy system in real time and alerts you as soon as ANY under-performance, faults or failures are detected.

Measure solar performance and energy consumption

The Solar Smart Monitor WILL save you money!

A Solar Smart Monitor means:

✓ MORE MONEY IN YOUR POCKET

A recent study showed, more than 50% of solar energy systems underperform. With a Solar Smart Monitor you could generate over \$500 in extra savings per year.

✓ 24/7 REAL TIME ALERTS

The Solar Smart Monitor keeps track of your system in real time and alerts you as soon as ANY under-performance is detected.

✓ ANYTIME, ANYWHERE ACCESS

Our online Dashboard gives you anywhere, anytime access to your systems performance from your computer, tablet or smartphone.

✓ PREDICTED VS ACTUAL USAGE

Find out exactly how much energy you are generating and compare with your predicted output to ensure your system is running at it's peak and saving you maximum dollars.

✓ LOCAL SUPPORT

Our friendly local support team are available to help you understand whatever problems are being detected so you can have the information you need to fix it.

See the results any time through the dashboard

Access our user friendly dashboard 24/7 from your computer, tablet or smartphone.

Why the Solar Smart Monitor is the right choice

- Compatible with all solar energy systems and inverters, whatever their age
- Patented algorithms for pinpoint accuracy
- User friendly and informative online reporting
- Outstanding 5 year warranty
- Intelligent diagnostics and timely alerts ensure fast fault and system failure resolution
- Expert Australian based customer support
- Lifetime monitoring for your system
